

## Out-of-Towners

Yes. This is the place your third cousin who was once on a road trip and drove through St. Louis told you about. Those burgers he still dreams about are here. Yes, we're worth the trip. (well, maybe you'd have to eat here like, at least three times if you were to make a really long drive to get here) The restaurant is quaint. Everything is old-fashioned. And our burgers &ndash; those open-flamed offerings to the Gods . . . all you have to do is order one. And you'll quickly see what the legend is all about.
